

Is there an easement on my property?

In order to determine if there is an easement of record for your property, a search would need to be done. The Recorder's Office does not provide searches but can show you how to search through our public records yourself. Or, you can review the deed to your property, abstract or Certificate of Title for reference to easements affecting your property or contact a title company or attorney. Records for the last 20+ years are accessible online at www.idocmarket.com as well for a minimal access fee.
