

Are there any liens on my property?

Various types of property liens are filed in the Recorder's Office. Those records are all open to the public and you are welcome to come into our office to search them out. The Recorder's Office staff does not do searches for people but will give you instructions on how to do so yourself. Or, contact an abstract company or attorney to do a formal review.

Judgments will show on an abstract but they are mainly filed in the Court Administrator's Office, so that is another place to check on liens.
